## Join CCI.live Online for the Sale!

*The best, the fastest and most comprehensive  
online marketing & bidding tool!*

BUYERS NOTE, you do not need an account or to login to watch the sale but you must have a validated account to bid.

**MARCH 14, 2025**  
**Friday • 4:00 p.m.**

**COME RIDE THE RED ANGUS WAVE...**

#### SALE LOCATION:

Ohio State Fairgrounds, Columbus Ohio. The fairgrounds are located between 17th and 11th Avenues, off I-71 North. Use Gate 8 on Sale Day.

#### SALE DAY PHONES:

Jeremy May, Sale Mgmt. (334) 341-0834  
 Lisa Kriese-Anderson, Sale Mgmt. (334) 539-2129  
 Ryan LePage, Auctioneer (740) 627-0133

#### ABSENTEE BIDS:

Buyers unable to attend the sale in person or on-line via CCI.LIVE, may send their bids to the Blackbelt Cattle Marketing, LLC Team, Auctioneer or Sale Representatives.

#### CCI.Live ON-LINE AUCTION PROVIDER:

Buyers who wish to watch the auction and bid on-line, need to ensure they have a validated account with CCI.Live. Please go to <https://CCI.Live> to register for an account. It is advised to sign up for an account prior to sale day.

#### SALE MANAGEMENT:

**Blackbelt Cattle Marketing**

#### AUCTIONEER:

Ryan LePage (740) 627-0133  
 OH License # 2002000026

#### SALE REPRESENTATIVES:

Drew Turner (330) 307-0267  
 Darby Watson (567) 232-2798

#### EXPO SALE OFFICE:

The buyer registration/clerking tables for **ALL BREEDS** will be in the meeting room in the O'Neill building, adjacent to the breeds office. There will be no clerking tables in Voinovich near sale rings.

#### LIVESTOCK MORTALITY INSURANCE:

Information available at the sale clerk's table.

#### VETERINARIAN:

Vet office will be in the meeting room of the O'Neill Building.

#### HEALTH OF CATTLE:

All cattle will be accompanied by proper health papers for Interstate shipment. All cattle will be negative for BVD. Bulls will have passed a Breeding Soundness Exam. A copy of the Ohio Beef Expo health requirements are available upon request.

#### CATTLE PICK-UP AFTER THE SALE:

Purchased cattle are to be picked up from the O'Neill Building at the conclusion of the Red Wave Sale and no later than 5:00 p.m. on Saturday, March 15, 2025. Please contact Red Wave Sale Management if you need assistance with trucking, or need to leave cattle overnight on Friday. Buyer gate will be Gate 8.

#### TERMS AND CONDITIONS OF SALE:

The cattle sell under the standard terms and conditions as recommended by the Red Angus Association of America. A copy of these terms and conditions are available from the sale clerk. **Cash or check only on day of sale. We are unable to accept credit cards.**

Announcements from the auction block take precedence over information listed in the sale catalog.

A supplement sheet will be available sale day with any updated breeding or calving information not found in the sale catalog.

#### EPD Values current as of February 9, 2025.

EPD values are updated weekly by the Red Angus Association of America. EPD values predict differences in performance of economically important traits between progeny of selected individuals. The most up to date EPD values can be found on the Red Angus website ([www.redangus.org](http://www.redangus.org)).

#### TRANSPORTATION TO THE OHIO STATE FAIRGROUNDS:

Port Columbus International Airport has excellent commercial air services by all major airlines. Planes will be met on request.

#### LIVESTOCK TRAILER PARKING:

For Friday and Saturday only (3/14 & 3/15/25), special trailer parking for the Ohio Beef Expo Sale buyers will be available on the main part of the fairgrounds just east of the O'Neill Barn where the sale cattle are located. To access the parking area, cattle trailers should enter the fairgrounds at Gate 8. This special trailer parking area is expected to fill up, so plan to arrive early. All other cattle trailers, including show and sale cattle exhibitor trailers and junior show trailers **MUST** park north of 17th Avenue after unloading. Visit [www.ohiobeefexpo.com](http://www.ohiobeefexpo.com) for details and map of the fairgrounds.

#### LODGING:

Headquarters for the Ohio Beef Expo is the Hilton Columbus/Polaris located at 8700 Lyra Drive in Columbus, OH 43240. Call (614) 885-1600

# Red Angus Yearling Bulls

Duff HD 2046 is the sire of Lot 1. Duff HD 2046 (RAA 446618) is a son of Mann Red Box 55C (RAA 3525359). Both Duff HD 2046 and Mann Red Box 55C move effortlessly with sound structure, volume and muscle mass. Duff HD 2026 is in the top 15% of the Red Angus breed for calving ease. His daughters are just coming into production and they look like they will be something special!

What is not to like about this dark red January 2024 bull? He is a son of the \$150,000 Duff HD 2046 combined with maternal J6 and Canadian genetics. Notice his structural correctness and level hip. Lot 1 is sure to produce females that will be in high demand. His 6 year old dam has produced 4 natural calves, including the dam of Lot 4. Lot 1's dam has a calving interval of 360 days with an MPPA of 109! His paternal half-sister sells as Lot 15A.

# Red Angus Open Heifers

9 Mile Franchise 6305 (RAA 3555188) is the paternal grandsire of Lots 2 and 3. He is undoubtedly one of the best all around Red Angus sires in the breed. Not only is he renowned for creating beautiful, functional females that are prevalent in the donor pen, his calves perform in the feedlot and on the rail. Currently, he has 6 EPDs in the top 10% of his genetic profile including ProS, GM, BW, Milk, CEM and REA.

This gal has brood cow stamped all over her. She is sired by our son of 9 Mile Franchise we purchased from Pieper Red Angus in 2020 out of a Pieper Red Angus bred dam. Her volume and structural correctness is hard to miss and her genetic profile is solid for ProS, HB and GM. She is just plain good! Her dam has produced 5 natural calves with a calving interval of 376 days. Her paternal half sister sells as Lot 3. Sells open.

This female is sired by our 9 Mile Franchise son we purchased in 2020. He stamps his female progeny consistently, which translates into sold, soggy, productive females. Lot 3 combines some of the most popular and productive American Red Angus genetics with Canadian Red Angus genetics. The result is a structurally sound, feminine female that is sure to become a solid brood cow. Her dam has produced 3 natural calves with a calving interval of 395 days. Her paternal half sister sells as Lot 2. This heifer sells open.

# Red Angus Open Heifers

Over Draft Pick 413D (RAA 3548524) is a true spread bull from birth to weaning. His progeny are stamped with volume, capacity and fleshing ability. Lots 4 and 5 mimic these traits from their sire. Draft Pick has 10 EPD traits in the top 25% of the Red Angus breed including ProS, GM, CE, WW, YW, ADG, HPG, CEM, CW and Marb. Truly an outstanding sire in the Red Angus breed!

This gorgeous young lady is a real eye catcher! Proven pedigree with Level Up as her sire who was named the Grand Champion Red Angus at KILE in 2022 and her maternal sister commanded attention at last year's sale. What a fantastic female that gets around on an incredibly smooth stride with her flawless foot and leg structure with plenty of growth and maternal genetics. Make sure to evaluate this piece of eye candy for she is sound, functional, well balanced, soft middle, and puts it all together in a smooth and complete package. Her dam has produced 4 natural calves with a calving interval of 368 days. Lot 10 sells open.

Lot 11 is a beautiful, dual registered HybRED red baldy heifer whose Simmental sire is a calving ease specialist and in the top 25% of the Simmental breed for muscle. Her six year old Red Angus dam, who encompasses Six Mile genetics, has produced 4 natural calves with a calving interval of 369 days. Lot 11 is soggy middle with expression of muscle blending into a feminine front. She will be an excellent, productive addition to any herd. Sells open.

Lot 12 is a bred heifer combining both J6 and Pieper Red Angus genetics out of Nebraska. Braveheart puts the extension and frame in his cattle making them very practical for marketing high quality cattle. Lot 12's Pieper Red Angus bred dam has produced 4 natural calves with a MPPA of 102. Bred to a son of Duff Red Blood 18114, JF Yankee Blood (RAA #4822613), with Canadian maternal genetics. Lot 12 was pasture exposed from 10/30 thru 12/13/2024 which correspond to a calving date from early August to late September 2025. Confirmed pregnant. Lot 12's paternal half sister sells as Lot 13.

Here is a bred ET heifer sired by the now deceased 4MC King of the Cowboys 706 and donor dam Ravishing Ginger! Both her sire and dam are known for their athleticism and structural correctness. Ravishing Ginger was named the 2013 NAJRAE Reserve Champion Futurity heifer. Don't lose out on these unique, hard to find genetics. Pasture exposed to a son of Duff Red Blood 18114, JF Yankee Blood (RAA #4822613), with Canadian maternal genetics. Confirmed bred for an August to late September calf.

Do you want the genetic foundation to begin or add to a Red Angus herd? Look no further than this Energize daughter out of a Hard Drive dam and her heifer calf. Lot 15 is in the top 10% for both ProS and GM with the genetics to become a long-term fertile and productive female that packs a punch. You have to admire this structurally correct and balanced pair with lots of eye appeal. You talk about fancy! Lot 15 is confirmed bred back - so selling as a 3 in 1!

Look at this beautiful September 2024 born female. Beautiful lines with all kinds of eye appear and combining Duff and Bieber genetics. Terrific as a show prospect and replacement female. Her paternal half-sib sells as Lot 1. Sells with her mother, Lot 15.

Bieber CL Energize F121, sire of Lot 15, registered more calves than any other Red Angus bull in 2023-24. This 2018 born sire continues to be a Red Angus trait leader for ProS, HB and GM. He perfectly blends phenotype with a superb genotype creating progeny cattle producers, feeders and packers demand.

What an opportunity to own a daughter of Stockman and her October bull calf out of LSF SRR Exceptional! Lot 16 has exceptional maternal genetics with a balanced EPD profile that will just flat perform. This Pie Stockman 4051 daughter is out of a really good Jefferies cow who has been bred back on the same day three years in a row. Lot 16's dam has a calving interval of 347 days with an MPPA of 107. Additionally, Lot 16 has a great udder with excellent disposition. Lot 16 was bred AI to HXC Grindstone 9909G on 12/12/2024. Pregnancy status will be available prior to the sale. Sells with her bull calf, 16A.

Here is an opportunity to purchase 10 units of semen from an exciting young herd sire. This bull is a combination of HXC Charter 6601D x Larson Sun King 016 genetics. His genetic profile includes 10 EPDs in the top 20% and an additional 3 EPDs in the top 30% of the Red Angus breed. This bull will breed profitability into your herd while producing functional females and calves that will do well on a grid marketing system. Buyer of the semen will contact B&M Cattle, LLC directly for semen shipment. Buyer will pay shipment costs.

# Red Angus Guide to EPDS and Indexes

**ProS...** Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

**HB .....** HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

**GM.....** GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

**CED .....** Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

**BW .....** Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

**WW .....** Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

**YW .....** Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

**ADG .....** Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

**DMI .....** Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

**MILK .....** Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

**ME .....** Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

**HPG .....** Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

**CEM .....** Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

**STAY .....** Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

**MARB....** Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

**YG .....** Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

**CW .....** Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

**REA .....** Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

**FAT .....** Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)
